## Innovation in the Heart of the Swiss microtech valley

Since 1931, in the heart of the Swiss  
microtech valley, we have been  
pushing the limits of endodontics by  
combining technology and innovation.

Our mission is to provide solutions  
that respect the complex anatomy of  
teeth while improving the treatment  
efficiency. With game-changers  
such as XP-endo Rise, RACE EVO,  
R-Motion, Finisher and TotalFill, we  
have transformed how endodontics is  
practiced, giving clinicians better tools  
to meet challenges with confidence.

Welcome to the heart of the Swiss microtech valley.

For nearly a century, we have been constantly re-inventing and challenging what we thought we knew.

We strive to create innovations for new ways of working: more respectful, more efficient, more agile, more ergonomic, and safer—serving new generations, promoting new visions of life, for us, for you, and for patients.

We embrace change that empowers endo.
